What is the solution?

Governex[®]

Governex is GGI's flagship product. Governex consists of six digital learning courses that examine the role of director, board and governance professionals and how they contribute to good governance both in and out of the boardroom. Governex is practical in nature and provides the opportunity to enact good governance immediately by applying leading governance practices to address real life governance dilemmas and opportunities in the workplace.

Governex is presented in plain English and is highly accessible, providing a solution for the time-poor Board/Council member and the Senior Leadership Team.

This course is the ultimate in flexibility and will fit many client needs. It is totally portable and useable on any device. It is perfect for remote area, great for large teams, suitable for today's executive with its interactivity while also still being valuable for the established director who wants to update their knowledge in their own time, where and when it suits them.

The course can be undertaken individually or in groups. As a group product it is perfect for running in parallel with face to face sessions to get the most out of the experience. Whether facilitated by GGI or organisation's internal team, the course experience can be crafted to be fit for purpose.

What to anticipate?

Over 6 courses, executives and directors will develop the requisite skills to not only understand, but influence and implement what are the principles of good governance in your organisation.

Through innovative digital storytelling and the use of interesting and sometimes amusing metaphors, reflection exercises throughout the course will leave you with your take on what needs to be improved and how to improve it.

Global Governance Initiative (GGI)

GGI was formed in 2017. At our core is a powerful mission: that all organisations and individuals, regardless of size or financial ability, should have access to the information and resources they need to support good governance and drive business performance.

We are about providing the opportunity to make a difference by sharing knowledge and demystifying governance and the boardroom.

Our manifesto:

We believe that for organisations to thrive in an environment of increased scrutiny and accountability, corporate governance knowledge must be accessible to all.

We believe that sharing this knowledge will lift the quality of business, government and not for profit sectors, wherever we operate, to drive strategy and performance.

We commit to the success of the GGI community by being there to help drive performance through clear actions and practical outcomes.

We commit to changing the face of corporate governance education in Australia by making leading governance knowledge and tools accessible to all.
